

Osun Baby-Shield (RS0030)

Fashionable Maternity Camisole/Tank with Exceptional RF Radiation Shield.

Ultimate Protecting for the baby from RF (Radio Frequency) Radiations!

Do you know you are exposed to more and more RF radiation that may cause harm to your unborn baby's health and well-being? This maternity camisole/tank will protect your baby from this danger.

About Radio Frequency and Microwave Radiation

Electromagnetic radiation consists of waves of electric and magnetic energy moving together (*i.e.*, radiating) through space at the speed of light. Taken together, all forms of electromagnetic energy are referred to as the electromagnetic "spectrum." Radio waves and microwaves emitted by transmitting antennas are one form of electromagnetic energy. They are collectively referred to as "radiofrequency" or "RF" energy or radiation. Some people become ill from many types of EMF sources, such as using a cell phone or microwave oven. Reported symptoms are headaches, arm and leg tingling, dizziness, difficulty in concentrating, nausea, and even more serious problems. When an expecting mom walks around the office and home and gets close to strong RF radiation sources, the baby may be affected as well.

Osun's Baby-Shield is specially designed for expecting moms who use cell phones and close to radiation sources like microwave ovens on daily basis. It can be worn as underwear or as an inner layer underneath professional dresses. Fit all 3 trimesters!

User Instructions

1. After putting the camisole on, adjust the shoulder straps so that the Baby-Shield fits comfortably around the belly.
2. Put on outer layer or professional dresses as normal.

You can now walk around the house/office and do your daily routine knowing that your baby is well protected by the Baby-Shield!

Specifications

Ultra strong shielding capability: containing 100% unique cutting-edge silver fiber blend shielding up to 100% of RF radiations from these sources: cell phones, microwave oven, wireless routers, and high frequency home and office devices.

Frequency Range: 500Hz—12GHz

360 degree coverage for all 3 trimesters: 36 inches at chest; 49.6 inches at belly and 24 inches long. Fitted design. S/M maternity sizes.

Silky smooth, soft, and elastic nylon/silver blend with classic lace trim offers versatile wear and feminine charm.

Breathable and comfortable jersey construction keeps you cool even in the summer.

Maintenance

To protect the shielding material and keep the best shielding capabilities: Hand wash cold with mild soap. Delicate cycle. Line Dry. Do not bleach. Do not twist. Do not iron. Do not fold tightly.

About Silver Fiber Blend

High-tech silver fiber blend is by far the best RF shield fabric used for apparels in the market. It offers exceptional RF/microwave shielding performance, stopping 99.99% (60dB) of RF radiation from 500 MHz to 12 GHz. The higher percentage of silver fiber blend, the higher RF shielding performance it yields. Silver fiber is also antimicrobial and anti-odor.

Warranty One year.
